

POSTPONEMENT OF GENERAL STRIKES URGED

**Government Requests
Oil Unions To Defer
Action
MAY ACCEDE
TO APPEAL**

**State Investigator On
Inspection Tour
Of Fields**

By ROBERT C. MIDDLETON.
Bakersfield, Sept. 22.—The government, through the department of labor, today made a last-minute appeal to the oil workers' International Union of Oil Workers to hold the threatened general strike order in abeyance until certain projects, designed to reach a peaceful settlement of the differences between the men and the oil operators, can be launched.

This appeal, in the form of a lengthy telegram, was received here on the eve of a gathering of the chiefs of the oil workers' strike, the chiefs of the various union-leads comprising what is known as the district council, to discuss the advisability of widening the strike to include the entire industry of the state.

That the union heads will probably accede to the government's request in the hope that the situation now being created in California will bring the strike to a halt was the opinion expressed by H. E. Fraser, district vice president and the spokesman of the strikers here.

While declining to be quoted, Fraser said that unless some extraordinary situation had arisen demanding prompt action, he would not have been in the department of labor to request that the strikers postpone their action.

Fraser spent an extremely busy day reviewing every angle of the situation. Arriving here shortly after noon he was met by the union heads and immediately went to the conference with District Attorney J. H. Dorey, later spending two hours in getting a clear view of the situation by a tour of the nearby fields.

This evening, after getting the official and union versions of the conduct of the strike, the special investigator for the department of labor, Mr. J. H. Dorey, met with the oil producers' Association of California, an organization just formed by the operators to combat the strike.

Although the government has declined to make any statement for publication, stating that the first report on conditions was satisfactory, the chief of the government's oil division, Mr. J. H. Dorey, said that the trouble was supposed to have had its origin in a purported attempt of the Association to displace its members from the Kern River fields. Several deputies who were sent out to investigate the trouble or the source of the call.

The trouble was supposed to have had its origin in a purported attempt of the Association to displace its members from the Kern River fields. Several deputies who were sent out to investigate the trouble or the source of the call.

Mr. Dorey, who rode to the seat of the supposed trouble with District Attorney Dorey, was stopped at Oildale, about three miles from Bakersfield, by a strike patrol. One of the pickets was carrying a good-looking woman, whom he called the man and told him that such weapons should be discarded, if for no other reason than because of the adverse effect they might have on public opinion and sentiment.

Before leaving for the fields District Attorney Dorey issued a short statement in which he said his interest was in the maintenance of peace, and that citizens should be willing to suffer inconveniences and minor intrusions of rights at the hands of the "law" in order to prevent the greater evils of bloodshed, strife and trouble.

Protection against bloodshed and security of property, in his view, are paramount and the best to insure their maintenance. Dorey said he did not intend to forecast his future attitude or policy but that the strikers should be subordinate to the larger principles of maintaining peace and preventing conditions which might menace both life and property.

STRIKE RING IS WELDED Entire Valley Covered By Patrol HELD TROUBLE SOURCE

Bakersfield, Sept. 22.—Virtually half the great San Joaquin Valley, from the slender county line on the north to the Kern county line on the south, is today under the strongest union influence of its history.

The striking oil workers have welded an iron ring, covering a territory of several hundred square miles in extent and roughly diamond-shaped, which is today the most powerful of the oil industry, and which the inhabitants for one moment are not allowed to forget there is a great industrial struggle on.

The ring of influence has been created by the strike organization known as the Law and Order Committee of the International oil workers. It is essentially military in structure and its operations are military in tone.

Erected for the purpose of procuring strict enforcement of the law, particularly in ridding the oil fields of bootleggers and other undesirable elements of the same ilk, it threatens to become the source of much trouble before an amicable adjustment is reached.

The traveler first comes in contact with the "ring" on the invisible line where Kern county meets the borders of Los Angeles county, high up in the mountains along the Rio Grande, just a mile south of Lebec. On the west the ring extends to the San Antonio range of mountains, the inner fringe of the coast range of mountains, while its influence reaches as far as Santa Maria, Santa Barbara and Ventura.

On the north the first contact with the law and order organization is at Holm, midway between Fresno and Coalinga, although the emphasis of the committee are situated as far north as Madera. Like a huge spider web the organization radiates to the point of travel throughout the strike territory, with the center at Bakersfield.

The activities of this organization, a majority of whose members are supposed to be ex-convicts of the great war, have caused a sudden shifting of public interest from the direct issue of strike to the oft-repeated question, discussed everywhere in the oil fields, of just how this organization came into being and what its ultimate purpose is.

Has this organization trampled on personal rights? Has the organization usurped the functions of civil government in many districts? Has an organization, composed entirely of persons from one side of the industrial dispute, a right of enforcement of the law been created? Has an organization, composed today at the most of 4,500 strikers, the moral or legal right to enforce the law been given over to the conduct of the 27,000 persons living in the counties of Fresno, Kern, Kings and Tulare?

In Bakersfield there are many rumors that the business men, chafing under the restrictions imposed by the union organization, intend to "start something"—an assertion of the principle that such an organization is not to exist and that the enforcement of the law shall remain in the hands of the constituted authorities.

There are those who assert that this principle is already being asserted by the business men of the strike zone, backed, of course, by the operators, the other party to the strike, and that the visit of Martin Madden, secretary of the Governor's committee, to the strike zone, is the result of the activities of the executive, is the result of the activities of the executive, is the result of the activities of the executive.

All sides admit that the law and order committee has been particularly effective in procuring strict enforcement of the law, particularly in ridding the oil fields of bootleggers and other undesirable elements of the same ilk, it threatens to become the source of much trouble before an amicable adjustment is reached.

The traveler first comes in contact with the "ring" on the invisible line where Kern county meets the borders of Los Angeles county, high up in the mountains along the Rio Grande, just a mile south of Lebec. On the west the ring extends to the San Antonio range of mountains, the inner fringe of the coast range of mountains, while its influence reaches as far as Santa Maria, Santa Barbara and Ventura.

On the north the first contact with the law and order organization is at Holm, midway between Fresno and Coalinga, although the emphasis of the committee are situated as far north as Madera. Like a huge spider web the organization radiates to the point of travel throughout the strike territory, with the center at Bakersfield.

The activities of this organization, a majority of whose members are supposed to be ex-convicts of the great war, have caused a sudden shifting of public interest from the direct issue of strike to the oft-repeated question, discussed everywhere in the oil fields, of just how this organization came into being and what its ultimate purpose is.

OPPAIL SCENE OF POLICE HEARING DISASTER AS RESULT OF BLAST

**1100 Dead, 400 Injured
Latest Estimate Of
Casualties**

**CRIES ARE HEARD
FROM WOUNDED
French Soldiers Take
Part In Relief
Work**

MANHEIM, Sept. 22.—(By The Associated Press.)—Desolation and ruins alone remain of what was once the flourishing town of Oppail. The town had 6,500 residents, of whom a majority of the men engaged in the chemical works were killed or wounded. Soldiers in French uniforms were clearing away the wreckage, picking up the dead and injured as after a big battle.

Eleven hundred dead and four thousand injured, the latest estimate of the disaster yesterday which caused more casualties in the Mannheim-Ludwigshafen district than the four years of the war. The desolation around Oppail is a sight to make the heart sick. The ruins of a similar area—hundreds of persons are digging in the ruins for the bodies of relatives or friends, and a mass of which have been recovered.

Thirty-six hours after the explosion from the gapping, funnel-like hole where the Badische Werke works had been, the French and German soldiers are digging in the ruins for the bodies of relatives or friends, and a mass of which have been recovered.

The vast crater is slowly filling with water and it may never be known how many victims found a grave there. All mutilated animals crawling amidst the twisted girders and blocks of concrete, are being picked up by the French and German soldiers and taken to the hospitals.

French Air Second Army corps of the French army is in charge of the area, and every available French medical officer has arrived to cooperate with German physicians and surgeons. The French and German soldiers are digging in the ruins for the bodies of relatives or friends, and a mass of which have been recovered.

The only thing that stops the settlement of the strike in the San Joaquin oil fields is the refusal of the owners of the industry to have the signature of government representatives upon the present statement of the strikers' position.

Experts who are inquiring into the cause said that the explosion probably occurred during the night of April 1st, but that the cause was not yet known. The explosion occurred during the night of April 1st, but that the cause was not yet known.

Several French soldiers were killed and many wounded when the French barracks at Elzenheim were wrecked by the explosion. The explosion occurred during the night of April 1st, but that the cause was not yet known.

General Degoutte decorated a French soldier who saved the lives of many others by his heroic actions. The explosion occurred during the night of April 1st, but that the cause was not yet known.

CONTINUED PEACE WITH JAPAN NOW SEEMS PROBABLE

**But Americans Should Keep Close
Watch on Activities**

BY CHASE S. OSBORN, JR.
Will the United States and Japan go to war?

After all, this is the uppermost topic of conversation when the relations between the two nations are considered. Personally, I cannot bring myself to a conclusion. I cannot understand what we would fight about, how we would fight, or where we would fight.

I fully appreciate that such a statement is the subject of direct and violent reaction, and that it will meet with ready disagreement on the part of those who are bitterly anti-Japanese, yet it is irrevocably my conclusion today.

I am not anti-Japanese. I recognize much to be learned from Japan, both as a nation and as a people, as well as much to the discredit of Japan. I believe that there should be no hesitancy as to criticism on the part of any observer of Japanese conduct, but I likewise believe that such criticism should be made in good temper and to good ends, that it should have for its purpose the removal of misunderstandings as well as a proper interpretation of events.

Furthermore, I deplore all criticism of Japan that has for its basis the intention of war, as well as all statements that are made on the basis of the ground that such criticism is destructive and not constructive.

For war with Japan is not inevitable. Minimum of Reasons. It is not to say, however, that there may not be war between the United States and Japan. Any statement to the contrary would be absurd, since none of us has any power to prevent war.

TWO KILLED AND ONE INJURED IN ATTEMPT AT ARREST

**Deputy Sheriff and Jailer
Are Shot Down By
Two-Men**

**AIRPLANES ARE
USED IN SEARCH
Complainant 'Also Shot
And May Not
Live'**

RIVERSIDE, Cal., Sept. 22.—Two officers were killed and a third man dangerously wounded late today on the outskirts of Riverside when they attempted to arrest two men, accused of stealing a car. Theodore Crossley, automobile dealer and depositor of the stolen car, was killed. Henry Nelson, county jailer, was fatally wounded and died during an operation. Martin Helms, complainant, who sought the arrest was seriously wounded.

Two army airplanes from March Field, near here, were pressed into service, and aided in searching through the outskirts of the city. After the bottom, in which the airplanes were believed to have a search for the stolen car.

Helms, 22 years of age, who lives on the edge of Belleville, a Mexican settlement on the outskirts of Riverside, appeared at the sheriff's office and obtained warrants for the arrest of two men of Belleville, on accusations that they had stolen a car from the Helms.

Crossley and Nelson went with Helms in the later automobile to arrest the accused men. Helms drove the car on a road in Belleville and the three were getting out of the automobile when they were fired by two occupants of the car.

Crossley fell, instantly killed. Nelson, who was wounded in the running board, dropped with a bullet through the head. Helms was shot through the leg.

Police from Riverside were called along the road to the Helms car. The three were getting out of the automobile when they were fired by two occupants of the car.

Crossley fell, instantly killed. Nelson, who was wounded in the running board, dropped with a bullet through the head. Helms was shot through the leg.

YARROW TO ASK GENERAL STRIKE NOT BE CALLED SETTLE STRIKE

**Union Head Prefers
Action on Walkout
Be Deferred**

**Believes Government Is
Desirous of Reaching
Settlement**

COALINGA, Sept. 22.—That the pending walk-out of oil workers throughout the state, throwing all oil producing districts of California into a general strike, will not take place was intimated through an unnamed source here today by Walter J. Yarrow, strike leader of California oil workers.

Yarrow stated that late last night he received a telegram from government authorities requesting that the further extension of the present strike be restrained. The request was from March and Connell, members of the federal oil board and representatives of the President's mediation board, and stated that Hywell Davies, United States government mediator, had been called to Washington, D. C., for a conference.

In commenting on the message from the government representatives, Yarrow said today, "I shall recommend to the district council tomorrow that they defer calling the general strike in compliance with the request of the government, as it is our constant attitude to recognize the United States authorities in all dealings in this matter."

"We are prepared to fight this battle to the bitter end," he declared, "and we believe that we have the government on our side in this present controversy. The authorities at Washington have no information concerning the union's attitude in connection with the oil industry and the strike. And it is our opinion that they are endeavoring to bring about a settlement of the strike."

The telegram received by Yarrow from the Federal Oil Board follows: "Los Angeles, Cal., September 22, 1921. Mr. Walter J. Yarrow, Oil Workers' Union, Coalinga, Calif.

"Hywell Davies has been called to Washington for a conference on oil situation and leaves tomorrow morning. We would impress upon you the necessity of restraining your people from making any further general strike. We will be advised further status of this situation within the next week."

"MARCH AND CONNELL, Federal Oil Board."

Six Men Escape From Police Station

KLAMATH FALLS, Ore., Sept. 22.—Six prisoners escaped last night from the police station jail. The lock bolt of the door had been forced off from the inside. Two prisoners held on misadventure charges refused to leave.

The prisoners who escaped were H. A. Watson, aged 25, held on burglary charges; Ed Jones, 19, larceny and violation of parole; Tom Capen, aged 25, prohibition law violator; Jack Kregg, 25, larceny; Alvin Reynolds, and Jack Morris. The men left today for Weed, Calif., to head off the fugitives who were reported being going in that direction in an automobile which was reported to have been provided for them.

U. S. SIGNATURE IS NEEDED TO SETTLE STRIKE

**Walter Yarrow Makes
Statement on Status
In Valley**

**Owners Refuse To Have
Representatives Sign
Contract**

Special to The Republican.
COALINGA, Sept. 22.—Walter J. Yarrow, leader of the California Oil Workers' Union, who arrived here last night from San Francisco, late this afternoon issued the following statement on the present status of the strike situation in the San Joaquin Valley.

STRIKE RING IS WELDED

Valley Is Covered By Patrol

(Continued from Page 1.)

head this week when five shootings, growing directly out of the activities of the patrol system, have been reported. A complaint in only one instance, however, has been asked from the legal authorities.

Here are the facts:

In Kern county more than 400 strikers have been deputized as special officers by constables in four townships. The sheriff has deputized no strikers but has given temporary commissions to approximately 100 men, loyal to the company and virtually all former or lease superintendents, as guards to watch the properties.

In many towns the marshal has recruited his force to blotted proportions by swearing in strikers to aid in enforcing the law.

Nearly 1500 men are in the law and order organization. They patrol every inch of the valley (except the strike zone) and the chiefly traveled roads in the strike zone.

They have assisted officers in turning up two scores or more illicit liquor runners. They have arrested outlaws, bootleggers, gamblers, and other parasites on the social body of the fields. They have, incidentally, effectively kept out 300 persons, alleged to have been strike breakers.

They have also instituted a sort of military discipline in their inner union organization for the dual purpose of keeping their members within the districts to which they belong and to procure absolute obedience to orders. Kangaroo courts, described as merely disciplinary, in the latest mode of accomplishing this.

In defense of the system, those who have installed the strike leaders call officers of the law to the stand as witnesses to testify that the "morals and peace and quietude of the communities affected are the best in their history" and that the "strike is one of the most peaceable and orderly ever conducted."

These witnesses include the recorder and marshal at Taft, the district attorney and sheriff of Kern county, and the district attorney and sheriff of Fresno county.

Deny Lawlessness.

Strike leaders also make this justifying statement: "The operators assert there is lawlessness where it is absolutely and unqualifiedly denied. There has not been a cent's worth of property destroyed, there has not been a drop of blood shed, there have

been fewer arrests a cleaner moral tone in the oil fields than ever before."

On the other side of the picture there have been five shootings, in which patrols of alleged strikers have fired at travelers, fusillades of bullets tearing into the body of a motorist, with, fortunately, no other bad results.

There are stories of men driven out of the valley, others compelled against their will to remain within the "ring," business men intimidated, cars allowed in efforts to stop recalcitrant travelers, baggage searched, and "much loose language" by the patrols.

Out of justice it should be said that the major high points of these complaints do not apply in Fresno county where Sheriff Jones has been obdurate in his refusal to deputize either strikers or company men, and where the union nuclei are not permitted on their oath to be armed.

As a partial test of the operation of this quasi-military, quasi-legal organization of strikers, two newspapermen, an Associated Press man and your correspondent, on yesterday made a trip of 155 miles through the strike zone, covering roads during both the day and night from Lebec to Taft.

In the 35 miles between Bakersfield and Taft there were four pickets, numbering about 25 men, the largest post being at Panama, eight miles out from the former city. Each patrol was in charge of a deputy constable.

The correspondents were stopped but once, at the Panama post, and were there treated with polite suspicion and consideration later melting into apology when the facts as to their identity was disclosed.

Patrols Not Interested.

The three remaining patrols were not even interested, probably because the press car was preceded by a striker car, which may have "tipped" their colleagues off not to stop the incoming travelers.

A second test was given in the evening. The press car was driven two miles out of the zone of the strike influence, then was headed back into the valley. Four men were posted in it, all plainly dressed to take on the

7,000 ATTEND HANFORD FAIR

Kings County Races Scheduled Today

HANFORD, Sept. 22.—More than 7,000 persons attended the Kings County fair today, this being the largest crowd of the week thus far. It was Children's day and the schools of the county staged an inter-school track meet, Hanford high school defeating Corcoran high, seventeen to fifteen.

The program at the track in the afternoon included several exciting horse races and tonight a display of fireworks, dancing and a card of boxing put on by promoter Raymond Lee, rounded out a day well filled with entertainment features. Judging is entirely completed, the ribbons being placed on the final classes in poultry today.

Tomorrow's program calls for the first automobile racing event. The but its sleepy members, looking alongside a low-burning fire, whose embers were but sufficient to cut the darkness, failed to make a challenge.

big event of the afternoon will be the 2-mile Kings county race in which six local cars and drivers are entered. The fair will close with the final music race Saturday afternoon, the music contest being a 50 mile free for all with 20 entries.

Navy Stool Pigeons Held Undesirable

WASHINGTON, Sept. 22.—The navy department has neither authorized nor sanctioned use of enlisted men as "stool pigeons" by civil authorities in connection with crime. Secretary Denby declared today, in ordering an official investigation of reports that such use had been made of blue-jackets by the police of San Diego, Cal. Admiral R. W. Eberle, commanding the Pacific fleet, was instructed to undertake the inquiry and to report to the department as quickly as possible.

The report reaching Mr. Denby included the newspaper clippings recounting evidence said to have been presented at the hearing of charges against Police Judge Ed L. Gavin on September 12.

Modes of Distinction

In a Formal Presentation of

Striking Wearing Apparel

The fashionable woman of the Valley, versed as she is in mode, correctness, will be quick to realize and appreciate the remarkable completeness and fascinating charm of this ultra-smart collection.

COATS

The particular wrap you have in mind is sure to be found in this assemblage.

Fabrics of the newest include: Evora, Normandy, Orlando, Mochatez, Marvella, Geronza, Duveltyne and Veldyne.

The choice is almost unlimited and embraces every popular silhouette approved this Fall. Lavish fur trimming and rare embroideries.

DRESSES

Alluring, saucy, piquant, or trimly conservative to suit the wearer!

Gay little frocks for the dance—of filmy lace and Georgette—of airy Chiffon—of dazzling Sequin trimmed fabric.

Or wool frocks demurely tailored and brightened, oftentimes with colorful embroideries—or beading—in tricot, Pique, Duveltyne and velvet.

SUITS

"Superb"—expressive of suits presented by us this season. Tomorrow's mode!

Rich—drapery materials—as—Veldyne, Moussyne, Pannelaine, Duvel De Laine, Duveltyne—in fascinating colors.

Will you choose a model exquisitely embroidered or one trimmed in nutria—or beaver or squirrel? Or perhaps a stunning model that depends only on "line" for distinction?

An Assemblage of Rare Furs Embracing A Wide Diversity of Styles and Qualities In This Our Greatest

FUR SALE

A most timely event and one that affords distinctly important savings to the purchaser. This great collection of beautiful furs is from one of the largest, most important and most reliable furriers in the country—and our patrons may participate with fullest confidence.

\$50,000 Worth at Substantial Savings

We can satisfy any preference from the least expensive CONEY SCARF to the richly luxurious WRAP. Capes, Sets, Separate Pieces, Sports Coats, Wraps and 34 length models are to be sold at many, many dollars below actual marked worth.

NEW!

Jumper Dresses

Of Velour, Serge and Silvertone

Most popular for Fall wear

\$8.95

PROPOSALS FOR TWO NEW PARKS BEFORE BOARD

Eighty Acres Offered To City By Realty Firm

Additional 18 Acres Is Offered By Roeding Estate

Two important park proposals were considered yesterday by the city park commission. One was an offer from Billings & Meyer to sell the city 80 acres in the Barton vineyard tract for \$75,000, and the other was proposed from Henry C. Roeding that the city acquire with the 50 acres intended for a golf course another tract, consisting of eighteen acres, lying just north of Olive avenue, adjoining the present park.

The park board asked Roeding to submit a definite proposal as to price and terms on both the 18-acre tract and the 15-acre tract. This he agreed to do.

On the Barton vineyard proposition, Mayor Hart agreed that H. C. Billings, who appeared before the board, make an effort to have the owners of the property consent to reduce their profits on the park site. Billings & Meyer had already agreed to submit the park to the city by the city company for the property, which appeared to be about \$200 per acre.

In a tentative form of contract submitted by Billings, it was provided that the city company should give the city an option on the property for five years, and the city to take immediate possession in a term rental of \$17,500. At any time during the life of the option the city would have the right to buy the land outright at a price of \$75,000.

Members Express Approval. The city company, determined, will prepare a form of contract, and with this and the Billings & Meyer contract as a working basis, an effort will be made to reach an agreement on the price and terms of sale of the property.

Members of the board individually expressed their approval of the proposed location of the park, and united in declaring that the city should add to its park holdings.

In introducing the proposal of the Roeding to the park board, Mayor Hart said that the city may have an opportunity to acquire with the 50-acre tract of the Barton vineyard, the 18-acre tract of the Roeding estate. He said that the city may have an opportunity to acquire with the 50-acre tract of the Barton vineyard, the 18-acre tract of the Roeding estate.

"Within the next five or six years, it will be necessary to enlarge the present park," said the mayor, "and if we are going to acquire more lands we must do so soon."

The mayor declared that he hopes to get some individual or family to buy additional park property and present it to the city.

"In the meantime," the city, he said, ought to take steps to acquire the needed land by lease with a definite option to purchase.

L. B. Payne stated that it is proposed to use the eighteen-acre tract exclusively for auto camp grounds for the benefit of tourists.

Roeding explained that the side of the eighteen-acre tract had been used since his last letter to the mayor. The city would have the property at a fixed rental with an option to purchase on terms so light that the per capita tax would amount to almost nothing, he said. It would be necessary to include in the deed a clause that the property should revert to the original owners should it cease to be used by the city for park purposes. He was not sure of the present time, he explained, to make a formal proposal on the eighteen-acre tract, but would send this into the board in writing within a very few days.

The board turned with interest an offer from the St. Helena Standard, a San Francisco paper, to donate to the city a three-year-old, at the cost of catching, crating and loading. Payne said that a half-dozen deer could be used very nicely at Reedley Park, and upon his motion, seconded by Markens, the board instructed Secretary Charles Rankin to ask the standard for an estimate on the cost of handling and shipping the animals.

Many at Park Camp. The monthly report of J. H. Pierce, superintendent of Roeding park, was received, showing that during August, 1250 main company parties were entered at the park camp grounds. In July the total was 1320, and in June it was 1310.

Commissioner of Public Works, Strickland, was informed by the board to provide pipe and pumping facilities so as to furnish water to the new addition to the park, and that the work be prosecuted as soon as the roads are graded so as to provide water in time for January planting.

In reply to a communication from the Santa Fe, Secretary Rankin was instructed to notify the railroad that trees and shrubbery at street crossings had been trimmed so as not to obstruct the view of vehicle drivers at grade crossings.

The board decided that in the future persons wishing to trim trees on the streets must make suitable their plans to the park superintendent for inspection. All requests for permits at the moment be referred to the park superintendent for approval before they are granted.

Jap Brings First Real Love Bride to the United States

Shigehara Yamamoto and his bride, Kikuku, photographed on their arrival in the United States.

Shigehara Yamamoto, a San Francisco Japanese artist, has returned to the United States from his native country, Japan, with his bride, who is believed to be the first real love bride to come here from Japan. Yamamoto went to Japan to marry the girl of his parents' choice, met Kikuku, refused to marry the other girl, and after a stormy session with his parents married Kikuku, the girl of his choice. He says that the young Japanese are awakened and many other young couples will follow the example he set.

Most of them will refuse to re-employ the strikers. Furthermore, whenever strikers succeed in getting back to work, it is expected they will generally have retained membership in the oil workers' union. Already more than one company has taken this stand as its own motion.

"Another state that is practically certain to be taken by the companies is that employees at work must not contribute to strike funds to be used against the company. Steps have already been taken to halt this move. Employees have been advised that if they contribute financially to attacks on the companies hiring them, they will be discharged."

The operators' association, it was said, plans on opening an office here within a few days from which their side of the controversy will be handled.

Strikers Hold Meeting. COALINGA, Sept. 22.—Striking oil workers of the Coalinga district held a rousing meeting last night at their strike headquarters in which several hundred members participated. The meeting ranked as one of the most important yet held, in view of the fact that some half-dozen prominent union leaders from various parts of the state were present.

Among them were R. H. Stickley, international president of the Oil Workers' Union; vice president Thomas Robbins of the International Brotherhood of Electrical Workers; George Johnson, president of the Fresno Labor Council; Dan Doggett of the same organization; N. M. Kirkpatrick of Maricopa, a member of the Workmen's Commission; and Walter J. Yarrow, strike leader of the oil workers.

R. H. Stickley, who through his office of international president is in very close touch with conditions throughout the strike district and the state in general, gave the local strike situation an interesting and encouraging talk on the strike situation. He stated that through all his past experience in union work and from what he had learned from men of years' experience, the present oil workers' strike is one of the most completely and perfectly conducted at any walkout ever called on the Pacific coast. He declared that less

JURY REVIEWS RAPPE DEATH

Subpoena Doctor To Explain Autopsy

SAN FRANCISCO, Sept. 22.—The death of Miss Virginia Rappe, Los Angeles film actress, was again before the county grand jury here tonight. A few nights ago this grand jury indicted Roscoe (Pat) Arbuckle, his guest and resultant victim, on a charge of manslaughter in connection with the girl's death.

Dr. M. E. Rumwell, the physician who attended Miss Rappe during most of her final illness, was subpoenaed by the grand jury to tell according to district Attorney Matthew Brady, why an autopsy had been ordered performed without consent of authorities required by California statute.

Miss Rappe's illness, it has been charged, began in Arbuckle's suite at the Hotel St. Francis here, while she was his guest and resultant victim of an alleged assault.

Previous to the convening of the grand jury tonight, district Attorney Brady announced an angle of the case would be investigated and particularly, he said, a report pertaining to a woman witness as having been heard.

"There is money in this case and I am going to get some of it,"

trouble is occurring the strike zone in any other strike that has been "puffed" in the West. It gave the men much encouragement as to the ultimate success of their action.

Other visiting officials also gave talks on the general situation and gave much encouragement to the men, assuring them the fight for recognition would be a success.

It was announced at the meeting that the Barbers' Union had made donations of \$100 to the strike fund. Similar announcements were made showing a donation from the common laborers' union of Fresno of \$100, from the Central Labor Union of Fresno, \$100, and from the Building and Metal Trades of Fresno, amounting to approximately \$10,000 for September.

\$4000 from the Oil Workers' Union of Fresno and others. The report was received by members with a burst of applause that could be heard over a greater part of the city.

Among other things in the general routine of business taken into the organization.

Open Meeting Is Held. FELLOWS, Sept. 22.—The Oil Workers of Fellows Local No. 1333, an open meeting to the public in their hall Sunday evening. Rev. Todd of the Fellows Baptist church gave a short talk in which he emphasized the unity of religion and daily toil.

Mr. Thomas, president of the Clerks' Union, gave some facts not generally known in a snappy manner. The real speaker of the evening, Mr. Harry Baker of Bakersfield, who accompanied the men on their behavior saying it was the first strike ever known that had been in existence for eight days and not a single case of anyone being hurt by violence. He advised the men to keep it up along the lines and tactics they have been using and right would win in the end.

Among them were R. H. Stickley, international president of the Oil Workers' Union; vice president Thomas Robbins of the International Brotherhood of Electrical Workers; George Johnson, president of the Fresno Labor Council; Dan Doggett of the same organization; N. M. Kirkpatrick of Maricopa, a member of the Workmen's Commission; and Walter J. Yarrow, strike leader of the oil workers.

Rail Heads Receive Strike Announcement

CHICAGO, Sept. 22.—Railroad employees in the country today received the official announcement that the railroad strike was on. The six federated shop craft unions have voted to strike against the general railroad wage reduction of 2.5 to 4 per cent, but will defer action pending promulgation of working rules now pending before the United States railroad labor board.

American railroad men took on average 100,000,000 in 1920. The labor union movement was yesterday by M. J. Joseph, head of the shop craft organizations, a strike meeting of Chicago shop workers.

The unions seek to retain the present national anti-strike pact.

General changes were made at the meeting. Joseph said that the railroad men were not going to demand of the union a part of a movement in which organized labor is not interested.

Asks Explanation Of Peace Meeting. LONDON, Sept. 22.—(By the Associated Press.)—Edmund de Valera, Irish republican leader, sent another telegram to President Wilson today in which he declared that the Sinn Féin had no thought of asking acceptance of any conditions proposed to a conference. He requests the president to accept the offer of peace.

He has been asked to accept the offer of peace. He requests the president to accept the offer of peace.

Wholesale Prices Make Increase

WASHINGTON, Sept. 22.—Wholesale prices increased 1.2 per cent in August over July, while the food prices leading in the advance, with an increase of 1.2 per cent, according to figures made public today by the department of labor.

Farm products, including wheat and corn, were 2.5 per cent higher in August than in July, the statement said, adding that there were decided advances in butter, cheese, milk, eggs, rice, meat, sugar, fruits and potatoes.

Most animals, including cattle and hogs, also averaged higher in August than in July. In all other commodity groups, except clothing, which was unchanged, the statement said, there were decreases in prices.

Stucco Anatomical Inventor Goes Home. NEW YORK, Sept. 22.—Justus Van Borchum, who makes stucco models of the human anatomy for the leading medical colleges, soon will return to Belgium because he can't find quarters in New York at the right price and because he can't obtain the proper help here. In his work, he says, long training is required and he has been unable to find any one willing to serve the apprenticeship.

Van Borchum revolutionized the art of making anatomical models. The old models were clumsy, heavy and often inaccurate.

Complimented by Bellevue Hospital in New York, he has been out to produce models that should be both, absolutely accurate and perfectly correct. He succeeded after years of painstaking work and international experience in making the models so nearly perfect that it was difficult to tell the difference from the original organ.

ACADEMY OPEN TO GUARDSMEN

May Take Examinations
For West Point

That National Guardsmen are eligible for admission to West Point has been pointed out in a communication just received from the Adjutant General's Office by Capt. L. T. Stephenson, of the Second Separate Company Infantry of Fresno.

The letter calls attention to the request received recently from the war department in which Governor Wm. D. Stephens, commander-in-chief of all the national guard forces in California, is asked to select candidates from among the enlisted men for admission to West Point in 1922.

The commanding officers of each National Guard company in the state is directed to select two men to enter the preliminary examinations,

which will be held in San Francisco and Los Angeles between November 1 and 15, 1921.

The officers designated to conduct the examinations are Lieut. Col. H. D. Coburn, Infantry, D. O. L. U. S. Army; Major Robert C. Cotton, Infantry, D. O. L. U. S. Army and Major Robert R. Wetshimer, C. A. C. D. O. L. U. S. Army. Candidates will be furnished transportation, pay and expenses while attending the examinations.

The extension of this educational possibility to the members of National Guard organizations is in line with the federalization of the guardsmen under the new plan of reorganization since the war. Previous to this year the candidates for these examinations were selected only from the regular army, some 500 of them being designated each year. Under the present plan this number is now divided evenly between the regular army and the National Guard companies throughout the country.

DEFENSE OPENS TODAY IN TRIAL OF TONG LEADER

Three State Witnesses Say Lee Yick Gave Orders

Crichton Withdraws From Case; No Reason Given

The prosecution yesterday rested its case in the trial of Lee Yick, charged with the murder of Fook Kee on June 7 at the opening of a tong war between the Sui On and Lung Tong tongs. The trial has occupied four days' time, two of which were devoted to the taking of testimony and two to the selection of witnesses.

Witnesses placed on the stand to testify by District Attorney H. W. Crichton, who is prosecuting the case, were: Fook Kee, who testified that Lee Yick gave the orders for the killing of Fook Kee. At least three witnesses have testified that Lee Yick gave the orders for the killing of Fook Kee. Following the fatal shooting of Lee Yick, in the street, the Lung Tong men, according to a dying statement made in the presence of a police officer, shot and killed Lee Yick. The police officer, Sheriff George H. Crichton, and newspaper reporters.

Following the shooting, Wong Toy, who was recently convicted of the murder of Fook Kee and sentenced to life in prison, testified that Lee Yick gave the orders for the killing of Fook Kee. The police claim that he was accompanied by Wong Toy, who is at large. Lee Yick, Tom Hain and Yee Lee, who are now facing murder charges, the district attorney contends, and the testimony offered to date, has shown that Lee Yick, who is charged with the murder of Fook Kee, was the one who gave the orders for the killing of Fook Kee. The testimony offered to date, has shown that Lee Yick, who is charged with the murder of Fook Kee, was the one who gave the orders for the killing of Fook Kee.

Following the testimony offered in the Wong Toy trial has been brought out in the Yick trial for the prosecution. It was necessary for the prosecution to establish the actual murder of Fook Kee. The conviction of Wong Toy was given by Yick and the fact that the orders were actually given.

Little attention is being paid to the trial by court spectators. The defense will begin its case this morning with an opening statement to the jury. The attorney in charge of the defense are Herbert C. Rattallick, J. J. Harris and J. D. Rattallick, Jr. Crichton, who was an attorney for Wong Toy, and who is said to have been a close friend of Lee Yick, for many years, has dropped out of the case. No reason has been given.

During the entire trial, the members of the jury, who are two women, have been picked up in the custody of Deputy Sheriff L. J. Crichton. They are being kept in the regular jury room and the men in the room of the grand jury. The jury is being kept in the regular jury room and the men in the room of the grand jury. The jury is being kept in the regular jury room and the men in the room of the grand jury.

It is believed that the trial will be concluded by Saturday noon. It may continue to a night session will be held tonight so that the case can be finished by noon tomorrow.

Club Notes

The San Joaquin Valley District Executive Board of Women's Clubs will hold the first meeting of the year at the Parker Hotel, Club House, 1350 Van Ness avenue, Fresno, on Thursday, September 23rd, at 10:30 a. m. sharp.

All club presidents, or their representatives, all chairmen of departments and standing committees and elected officers of the district are members of the executive board and are expected to attend. All county presidents are especially requested to attend this meeting as a president's council will be held after the board meeting.

Fortune Awaiting Woman Living Here

Miss Mabel Cassel has a fortune awaiting her. People knowing of Miss Cassel's whereabouts are asked to communicate with the police department. A letter received by local authorities yesterday states that she can not be located to be informed of a large inheritance recently left her.

Nine Fire Hydrants Are Now Installed

Nine new fire hydrants have been installed, set up, and connected to the recently laid 12-inch main on Tulare street between M street and Van Ness boulevard. Fire Chief W. P. Berthold said yesterday the work of installing new fire hydrants in the downtown section of the city will be completed within three weeks.

Normal M. E. Church, will be held Tuesday afternoon in honor of Miss Florence Stephenson of Ashville, North Carolina, the guests being members of the Women's Home and Foreign Missionary Society of the First Presbyterian church. Mrs. F. Z. Austin led the devotion; Mrs. H. C. Connelly sang a solo and Miss Stephenson gave an interesting talk on her work among the mountaineers in the south. Delightful refreshments were served later by the hostess, assisted by Mrs. N. E. Carnine, Mrs. S. E. Dillon and Miss Julia Sayre.

Mrs. C. H. Staples, who recently returned from a vacation spent at Coronado and in Los Angeles, delightfully entertained the members of the Sphinx club at a cleverly arranged luncheon given at her home on Belmont avenue yesterday.

Car Thief Tries To Steal Auto; Then Runs Away

An automobile thief created considerable excitement on Van Ness avenue shortly after 7:00 o'clock last evening when he endeavored to steal an automobile belonging to E. S. Webster.

Jumping from the car, the man ran to Kern street and thence towards the Southern Pacific railroad tracks. He was pursued by five men who gave up the chase after running several blocks. That the thief is unemployed and in dire need of funds is the belief of several who stated last night the man arrested yesterday afternoon saying "Can you help a poor bunt?" This man did not aid him.

Police officials were searching late last night for the man. A meagre description was given them by the crowd witnessing the attempted car theft.

Mrs. Jerusha Downs Rites Here Today

Funeral services for Mrs. Jerusha Cushman Downs, who died Tuesday at the home of her daughter, Mrs. Anna E. Hay, 1535 Van Ness avenue, Mrs. Downs is survived by two daughters, Mrs. Anna E. Hay and Mrs. L. Manning of Fresno.

Funeral arrangements were made by Stephens and Bean.

Ex-Service Man To Be Buried Saturday

Simple but impressive funeral services will be given to Corporal Henry Jepsen at 3 o'clock tomorrow afternoon in the Stephens and Bean chapel. Interment will be made in the Washington cemetery.

Corporal Jepsen was killed in action in France October 3, 1918. He was a native of Illinois and 28 years old. He is survived by three sisters, Mrs. Robert Peterson, Miss Anna Jepsen, Miss Stella Jepsen, and one brother, William Jepsen, all of Fresno.

HORR FUNERAL TODAY

Rev. John Freeman Mills will conduct the funeral services of Charles Horr at 2 o'clock this afternoon in the LaSalle and Rosa chapel. Interment will be in Mountain View cemetery.

Mr. Horr was 67 years old and a native of New York.

Failure of the defendant to appear before United States Commissioner Strother H. Walton yesterday, caused the preliminary hearing of J. V. Miller, Hanford merchant charged with selling liquor, to be postponed to October 20 at 10 o'clock in the morning.

State President Is To Be Entertained

Mrs. Florence Kelly, state president of the Women's Auxiliary, American Legion, will entertain the state president of the Legion Auxiliary, Mrs. H. H. Kelly, at her home on a street commencing with the letter M. The party was given at the home of Mrs. Florence Kelly, who is the guest of Mrs. and Mrs. J. W. Armstrong of this city.

Man Arrested Here On Forgery Charge

J. H. Handorin, was arrested at Hanford and Mariposa streets on a forgery charge yesterday morning by Inspector Al Trusdell. The inspector said last night Handorin is charged with forging two checks, one for \$25 and the other for \$50.

ARRAIGNED ON CHARGE. Joe Labayo, charged with maintaining a place where liquor is sold, will be given a preliminary hearing before Judge George S. Graham, October 5. He was informed of his rights and his bond set at \$500 yesterday. Labayo was arrested by Inspector Al Trusdell at California and Church streets yesterday morning.

JEWELRY STOLEN. Jewelry valued at \$200 has been stolen from the residence of D. Hadolin, 1207 D street, according to a police report.

SENTENCE WITHHELD. Fred Day, charged with possessing intoxicating liquor, was given a 90 day commitment withheld sentence yesterday. He was arrested September 1.

Hog Auction Set Today Cancelled

Due to the fact that only half a carload of hogs had been listed up to Wednesday evening, which is not a sufficient amount to justify a sale, there is to be no hog auction today at the Southern Pacific stockyards. This announcement was made yesterday by J. P. Benson, county farm adviser. The next hog auction is to be held Friday, October 1.

YOU CANNOT HAVE BEAUTY If Your Complexion Is Marred by Blemishes.

It is a well known fact that beauty cannot be if the complexion is in any way marred by pimples, dark, yellow discolorations. If you suffer any of these skin blemishes begin at once the use of:

BLACK AND WHITE BEAUTY BLEACH

This delightfully perfumed cold cream compound will make the skin clear, smooth, delicately tinted and remove unsightly blemishes. When applied it forms an invisible coating on the skin. The regular use of Black and White Soap will keep the skin in perfect condition.

Clip and mail this advertisement to Black and White, Box 1507, Memphis, Tenn., for free literature and samples of Black and White Face Powder and Incense Talcum.

Stunning models of silk velvet will find ready buyers today at this price. A choice collection—becoming to both women, misses and Junior College girls all underprice at \$4.95.

GOVERNMENT INVESTIGATES KU KLUX KLAN

Assistant Manager of Hotel Tarred and Feathered Masked Men Whip Man and Order Him to Leave Town

WASHINGTON, Sept. 22.—Information to the hands of the department of justice as to the activities of the Ku Klux Klan was laid before President Harding today by Attorney General Daugherty, after the latter had conferred with Director Burns of the department's bureau of investigation.

President Harding was understood to have approved the decision of the attorney general to take up consideration of whether federal action had been taken with respect to any activities of the organization.

An investigation of the Ku Klux Klan in also proposed by Representative Tague, Democrat, Massachusetts, in a resolution, which he has prepared and expects to introduce today. In the preamble he asserts that the organization is anti-American and that its objects and purpose are the exile and suppression of persons of certain races and religious sects.

Following closely the statement that the department of justice was investigating the Ku Klux Klan, Postmaster General Hays today disclosed to newspapermen agents of his department also were directing into its activities. He declined to say on what angle the investigation was being made.

Barber Attacked

MUSKOGEE, Okla., Sept. 22.—C. J. Anderson, a barber of Boynton, was whipped by eighteen masked men tonight and given 18 hours in which to leave town "we are not members of the Ku Klux Klan," the masked men told Anderson. "We are tired of your actions and we are going to get rid of folks like you." Anderson was bound, gagged, and blindfolded and thrown out of a car on the main street of Boynton.

Tar and Feather Man

SHERIDAN, Texas, Sept. 22.—S. A. Weigler, assistant manager of a hotel today notified county officials he was tarred and feathered by masked men last night, according to the sheriff's office. He was a witness for the defense in the trial of a negro bull boy charged with attacking a white woman.

Floods Cause Hundreds To Flee

ATHENS, Ohio, Sept. 22.—Floods, resulting from a cloudburst, at Corning at the headwaters of Sunday Creek, today caused hundreds of persons in the low lands between Olmsted and Athens to flee to the hills. Bluster, Corning and Trimble suffered heavy damage. Several large coal mines are reported to have been flooded, with heavy loss.

Campaign To Sweep Offener Is Launched

CHICAGO, Sept. 22.—The extension of the household broom has been prolonged 100 per cent in recent years, according to the Chicago Broom Manufacturers' meeting here. Movies and automobiles were blamed for neglect of the broom and the manufacturers decided to start a campaign to make sweeping popular again.

Abatement Case Is Under Advisement

Special to The Republican. VISALIA, Sept. 22.—Superior Judge J. A. Allen late this afternoon took under advisement the case of W. H. Jones, Mayor of Tulare, vs. J. Budd and the owners of the Grand Hotel, in that city in which the city of Tulare seeks to close the house under the red light abatement law of 1915.

In taking the case under advisement the court declared it to be his opinion that the clear intent of the law was not to close hotels where immoral conduct might occasionally be carried on without the knowledge of the proprietor or management. It is alleged by the defense in this case. The court also said the allegation that the house has since changed hands and been given a moral and physical cleaning up presented another aspect which he would study.

Live Stock Market Is On Improvement

SAN FRANCISCO, Sept. 22.—Improvement in the live cattle export trade and in the demand for dressed beef, together with better labor conditions and consequent increased consumption are factors in present market conditions, according to a statement issued at the offices of the California Cattleman's Association here today.

The statement adds that plans are being formulated rapidly for loaning a sum exceeding several millions of dollars, if necessary, to California cattlemen through the federal war finance corporation and that the rate of interest on such loans will not exceed eight per cent, while it, possibly, may be less.

Man Shot In

FAMILY ROW DIES

MEDFORD, Ore., Sept. 22.—Wilbur Jacks of Jacks Point, who was shot yesterday by "Belle" Matthews in an altercation involving Matthews' alleged attentions to Mrs. Jacks, died this morning. Matthews is in jail and it is expected will be charged with murder.

Governor General Of Ireland In Scotland

GLASGOW, Scotland, Sept. 22.—(By The Associated Press.)—Viscount Fitzmaurice, lord lieutenant and governor general of Ireland, arrived here this morning on board a destroyer. He conferred with Prime Minister Lloyd George, whose health continues to improve.

GUARD RUSSIANS AT CONFERENCE

U. S. Sends Assurances To Republic

WASHINGTON, Sept. 22.—Assurances that "legitimate Russian interests" will be carefully guarded at the armament and Far Eastern conference have been conveyed to the Russian people by the department. Sufficient assurances, formal and informal, are understood to have been received by the state department from the different powers invited to participate in the disarmament conference to make it appear that Holland and Belgium will be given seats at the conference when it discusses Far Eastern subjects.

The state department's proposals regarding the conference program which were forwarded to the invited powers are understood to have been responded to in part and on the whole to have met with little announced opposition.

It was indicated that the state department regards with satisfaction the progress being made in the direction of understanding concerning the topics to be discussed.

The assurance to the Russians were directed to the authorities of the Far Eastern republic at Chita in response to the request of the republic that its representatives be admitted to the conference. The department announced today that its reply was delivered through the American minister at Peking. The American views were paraphrased by the department today as follows:

"In the absence of a single recognized government the protection of legitimate Russian interests must devolve as a moral trusteeship upon the whole conference. It is regrettable that the conference, for reasons quite beyond the control of the participating powers, is to be deprived of the advantage of Russian co-operation in its deliberations but it is not to be conceived that the conference will take decisions prejudicial to legitimate Russian interests or which would in any manner violate Russian rights.

"It is the hope and expectation of the government of the United States that the conference will establish general principles of international action which will deserve and have the support of the people of Siberia and of all Russia by reason of their justice and efficiency in the settlement of outstanding difficulties."

School Girls Vote to Curb Many Luxuries

SAN FRANCISCO, Sept. 22.—Girl students of the high school of commerce, about 1000 in number voluntarily voted 9 to 1 today in favor of abolishing the wearing of silk stockings, transparent waists, fancy frocks and pyramid hair dressing; and to substitute cotton stockings, middle blouse and wash dresses.

Recognize Death Of Washington Infant

NEW YORK, Sept. 22.—Queen county authorities today took official recognition of the death last Saturday of a Richmond Hill nursery of Winston Lanier Washington, 17 months old, son of William Lanier Washington, banker, clubman and direct descendant of a brother of George Washington.

An official report filed by Medical Examiner Nammack read:

"Death was due to shock due to burns on the face and body and extremities caused by the application of iodine-acetic acid."

The child, born to Mr. Washington and his second wife, formerly Miss Alice May Holland, was placed in the nursery at the age of four months when Mrs. Washington was ordered to take a trip for her health.

Recently the child developed a skin disease and the physician prescribed iodine and an ointment.

The physician said he had ordered the nurse to paint only affected parts, but Dr. Nammack said he had found she had taken a brush and painted the entire body for a week, bringing convulsions.

MINERS TO ASK WAGE INCREASE

Men May Strike If Demands Not Met

INDIANAPOLIS, Ind., Sept. 22.—A demand for wage increases next year for coal miners, expressed today by reports of international officers of the United Mine Workers of America to the union's convention, carried an implied threat of a strike involving the largest number of organized miners in the history of the United States.

This outstanding development of the constitution did not get before the delegates for consideration, but opportunity for their discussion will come later after the officers' reports are presented tomorrow for acceptance or rejection, however, the convention was told by Lee Hall, chairman of the wage schedule committee, that he was opposed to reduction.

The threat of the strike was seen in the report of Vice-President Philip Murray, who said it was a foregone conclusion the convention would favor improvement of wage agreements that expire next March 31. The report of Secretary M. W. Bretherton gave the union's membership at more than 515,000.

The first outspoken reference to differences between international and district officials was made tonight at a caucus of more than 200 delegates from the two West Virginia districts. After several delegates attacked Frank Huntington, president of the Illinois miners, the delegates ultimately adopted a resolution plugging the West Virginia vote as a unit in support of policies advocated by John L. Lewis, international president.

Japanese Cruisers Are At San Diego

SAN DIEGO, Sept. 22.—The Japanese armored cruisers Yamato and Idzumo, commanded by Vice Admiral Faltz and with 100 naval cadets aboard, arrived here this morning for a stay that will last until next Monday. Among the cadets on board the ships are two Japanese princes. Salutes were exchanged by the Japanese warships with American warships in the harbor, and later calls of courtesy were exchanged by the ranking officers of the two navies. The Japanese ships are scheduled to sail next Monday for Panama and after passing through the canal will sail to New York.

RAIL OFFICIAL DIES
SACRAMENTO, Sept. 22.—J. B. Brennan, superintendent of the Sacramento division of the Southern Pacific railroad, died at his home here today after a long illness. Brennan was well known in railroad circles of the Pacific coast. At one time he was superintendent of the Stockton division of the Southern Pacific at Stockton. He also was superintendent of the Oakland division of the same railroad.

Brennan is survived by his widow and three sisters.

Preparation Made for State Survey of Water Resources

The machinery which eminent engineers believe will eventually transform the San Joaquin valley into one of the garden spots of the world and make the new era of progress for the state of California the greatest in its development history was set in motion this week at Sacramento when the advisory board of the Water Resources Investigation by the state of California met with the state engineering department to organize and formulate plans for a comprehensive survey of the water resources of the state in conformity with the bill enacted by the last legislature.

The San Joaquin valley was represented by J. C. Perkins. The board is composed of some of the best known experts in the state and in addition to Perkins is composed of H. D. McGinnis, San Francisco, U. S. topographical engineer for the Pacific coast; R. A. E. Bicknour, Berkeley, professor of irrigation, University of California; Col. Robert B. Marshall, Patterson, originator of the Marshall irrigation plan; W. S. Los Angeles, consulting hydrographical and irrigation engineer; T. F. Flaherty, Riverside, editor; Otto B. Platt, El Centro, editor of the Progress; and Robert C. Cook, Fresno, business man and large land holder.

The purpose of the investigation, to determine what waters of the state can be converted to public use or controlled for public protection, in scope and possibilities the investigation is one of the most comprehensive moves ever launched in the country with a view to public betterment according to those who are familiar with the work that will be undertaken.

With the recognition of the fact that the development and the expansion of the state of California is dependent absolutely upon the ability to secure water with which to develop the agricultural resources of the state, the investigation assumes the importance of a great state planning movement. Based on the expansion of the past decade, the opinion is expressed by engineers that the next decade will see the greatest development and expansion in the history of the state.

At the opening meeting of the advisory board, it was pointed out that the San Joaquin and Sacramento valleys are developing at a much slower rate than should be the case. This was attributed to the lack of a comprehensive plan of bringing available water to the land and lack of guiding development, course that will provide for the tremendous increase in population which engineers unanimously predict will soon invade these sections.

To Take Up Propositions
A series of propositions and plans will be gone over by the board in determining the course of procedure to be recommended to the next legislature which is the primary purpose of the investigation. All available data and statistics will be collected and with these for guidance, a plan of action will be evolved for the future.

The board will also consider comprehensive plans for accomplishment of maximum conservation, control, storage, distribution and application of all waters of the state and will estimate the cost of constructing dams, canals, reservoirs and other work necessary in carrying out this plan.

J. C. Perkins was representative of the section of the state on his return from the meeting was most enthusiastic over the outlook for the future development of the state. "It is the greatest forward move in 60 years," he said.

The board has a fund of \$200,000 to carry on the work and some feel that this fund is not sufficient for a comprehensive state survey, the engineers in charge are receiving requests for details from various sections of the state.

"No previous investigation of state wide scope along these lines has ever before been attempted and many municipalities are planning detailed investigations in conjunction with the state survey."

KINGS COUNTY FAIR SHOWS FINE EXHIBIT

Both In Livestock And Farm Products Its Showing Excels
All Communities Share In Making Annual Event Success

BY ROBERT H. NICOL
The annual county fair of the "Little Kingdom of Kings," which opened Tuesday and continues throughout the week and which is always one of the best of the county fairs in the state, is this year bigger and better than previously. It has been attended by numerous crowds of visitors all the week. It is the eighteenth annual event of its kind, and by the way, it is said to be the oldest county fair in California.

Its officers and directors are hard-working and hard-working, who do their very best at each recurring fair time and they find it a pleasure to see the fair on the part of the residents of all sections of the county. Active in the affairs of the institution are the Veterans horse and swine raisers, Mark Russell, who is president, Frank H. Graves, Jr., R. Cunningham and E. G. Sellers, vice-presidents, who together with Secretary Russell and the several directors from all parts of the county have made this fair the grand success that it is hoped for and made it bigger and better than any of its predecessors.

Kings county has always been well in the lead in its quality and quantity of live stock, both beef and dairy cattle, live horses, choice swine and excellent poultry. All these can be seen in great numbers and of the finest of the pure bred grades. In cattle the Elmore Farms of Watsonville exhibited some of the best Ayrshires, the pretty light red and white cattle, whom many dairymen consider the best. In Jersey, George McKinnis of Mendocino, A. A. Johnson of Tulare, James Thorpe, Luskford and W. J. Hancock, Ceres, had many splendid animals in the stalls. In milking Shorthorns, J. D. Weaver of Tulare, with his fine string of red and white, including North Star, his horn bull, who won the championship in his class at Sacramento, and the large string of roan shorthorns of J. D. Rawley & Son of Hanford, including the famous Favorita, the big roan horn bull, which will be seen at the Fresno fair, and his prize cow, Belleview Daisy, which was grand champion at the State fair. Perhaps the most attractive live stock exhibit was that of A. B. Humphrey, of Escalon, who had the only string of the pretty white Guernseys in the stalls. These were not so common in this part of the valley as the Holsteins, Jerseys and Ayrshires, but attracted much attention. Of course the Holstein cattle that were exhibited were the object of admiring eyes, for there are more of these big black and white stock in the San Joaquin Valley dairies than any other breed. Highton & Hall of Tulare, A. B. Comfort and J. W. Arthur of Hanford had many fine animals on exhibit, including some splendid built and promising heifers and bulls in the young stock to be seen, and these took many ribbons.

Another thing that Kings county is famous for is its poultry. The exhibit of the Holstein-Chinese was that of Buckland & McNeil of Fresno county. However, Alfred Richland claims to have secured his start in the big business by buying his first prize-bred hog from Will Bergeton of Hanford, a breeder of state wide reputation. This firm carried away some fine prizes, first grand champion bear, with Giant Prospect, grand champion sow, with Hawkeye Maid, aged boar first prize. Grand champion boar with The Shark and of course was well satisfied. The firm's exhibit was a splendid one.

Boy Scouts Will Care For Kiddies At Fresno Fair

Boy Scouts of the Fresno troops are to make the fair-ground as soon as possible after they are dismissed from school at noon Monday in order to perform their part in caring for the children who will be the guests of the fair management on the opening day of the fair. Scout Executive Henry Hopkins announced yesterday. The scouts are to wear full uniform and may obtain transportation by riding on the fair grounds. Admission to the fair grounds will be free.

Special Program For Young People

An unusual program is to be given by the Epworth League of St. Paul's Methodist church at 6:15 Sunday evening. The program will be a musical and dramatic presentation of the life of a reformed girl, the story of which will be told by Miss Florence King. The program will also include duets, quartets and choruses by members of the league, which were written for this purpose.

Given Probation On Burglary Charge

Earl J. Holter, who pleaded guilty to a burglary charge was granted probation for three years yesterday by Judge C. E. Beaumont on the recommendation of Probation Officer Agnes. Holter is an ex-convict and has been in the state prison for several years. He received an excellent report from the probation officer.

MANY JOBLESS MEN SEEKING WORK IN CITY

More Unemployed Than Usual At This Time Of Year
More Inquiries Asking For Beds Instead Of Meals

Jobless men are "floating" through Fresno daily by hundreds, according to information gathered yesterday from a number of sources, including the state employment agency, the Salvation Army and the city police department. The big demand on the Salvation Army at present is for beds rather than for meals, and at the state employment bureau several hundred men daily drop into that office looking for work. The police department says there are more unemployed just now in the city than is usual at this time of the year.

URGES LEGION MEN TO ASSIST IN ALIEN PROBE

Letters Are Sent To Members Asking Co-operation
Want Cases Reported To District Attorney Of County

The assistance of American Legion posts throughout the county is being sought in the prosecution of alien and law violators through letters sent out yesterday by A. M. Taylor, secretary-manager of the Post No. 4, asking that all members of the Legion and other citizens report all Japanese and Chinese who have taken up land since November of last year. Following is the letter sent out yesterday to post adjutants:

"Dear Comrade: As you have no doubt noted in the daily papers, the district attorney's office is about to begin an active campaign for the strict enforcement of the anti-alien laws in this county. It being one of the chief aims of the Legion in California to keep America for the Americans, and to protect our shores from an invasion by the Orientals, it is my feeling, and I am sure, the feeling of every ex-serviceman in Fresno county that each and every one of us should aid in the enforcement of this law."

"With this purpose in view, I have discussed the matter with Honorable W. W. Cleghorn, district attorney, of Fresno county, and with Philip Caplan, deputy district attorney, who will aid Mr. Cleghorn in the enforcement of this law, and they both state that they will be very grateful to any Fresno county citizen who will bring to their notice information concerning the violation of the law by foreigners. In view of the fact that it is extremely easy for Japanese, aided by skilled lawyers, to cover up their actual status, it seems to me highly necessary that each Post in Fresno county should appoint a committee to investigate the situation in its locality. This committee should report the names of all Japanese and Chinese who have taken up new land since November of last year, the addresses of such persons, the names of the former occupants of the land, and such additional facts as may be obtained. It is impossible for you to verify such facts as may tend to cover up the question of whether or not the person is an alien. These reports might be sent directly to the district attorney or they can be sent to me and I shall take them up with Mr. Cleghorn personally."

"Trusting that you will co-operate with Fresno Post in protecting our country from the Japanese, I remain, 'Very sincerely yours, A. M. TAYLOR, Sec'y."

Associated Raisin Leases Building

The building at 1233 L street occupied by the Associated Raisin Company has been leased for two years by the Associated Raisin Co. to be used as additional offices for departments. The building company, it is reported, will spend \$4000 in remodeling and putting the building into first class condition for office purposes.

ADVANCES MADE

WASHINGTON, Sept. 22.—Advances totaling \$1,000,000 made to the cooperative grain growers of Minnesota and in marketing 1921 crops was announced today by the War Finance Corporation.

SIBERIAN LAND IS NOT NEEDED

Population Claim False, Declares Osborn

(Continued From Page 1)

Japan is unable any longer to obtain more territory in China due to opposition that will be met from other governments and secondly because Japan's competition in trade channels has become so great since the war.

No Outlet in China.
Japan finds that she cannot hope to obtain more territory in China since she will not only be blocked by objections from the various governments of the world, but also by the new spirit that has arisen since the great war that the integrity, both territorial and economic of weaker nations must be guaranteed, he continued.

With Germany, Belgium, France and other nations out of competition in China during the war, Japan massed together a great amount of trade. However, since the conclusion of the war, Germany once more controls the day situation in China and she is sending great quantities of steel there also. In addition, that nation is sending in general merchandise of various types and quantities. These two facts make Japan turn toward Siberia for future conquests," he declared.

Mr. Osborn declared that the over population cry, raised by the Japanese, was merely propaganda to shield their activities. He stated that Japan could raise the argument because the nation was only as large as California in area. He declared, however, that the territory was sufficient to house all of the inhabitants with plenty of land to spare.

In the Japanese statements about the return of Shantung to China, she proposes to restore the sovereignty of China over the provinces and to give to the section her burden of government. She proposes, however, to retain the commerce and industries which she has enjoyed during the period of occupation, which were similarly enjoyed by the Germans in their occupation of the province," the editor continued.

He urged deep study of the Shantung question, which he stated was to be one of the main issues that will be brought up at the coming disarmament conference to be held in Washington. He declared that the proposition submitted by Japan, if agreed upon and accepted by the other powers relative to Shantung, would furnish a solid basis for a Japanese province in reality.

Tells of Experiences.
The belief that Americans were being treated with indignities in Japan was refuted by Mr. Osborn who declared that he was treated with the utmost courtesy during his visit to the island nation. The editor told, in the introduction of his talk, of the inconvenience suffered due to his unfamiliarity with the Japanese tongue. He further declared that America was the only country of the world that having trade relations in the Orient had not attempted to exploit China. He declared the fact that the government had not deemed it wise to continue its interests in the Orient which had started in the "Open door for the Orient" policy.

Kiwanian William St. Sure, advertising manager of The Republican, was chairman of the luncheon. A jazz orchestra including Robert Zimmerman, Frank Clinton and Jack Chase furnished the music for the occasion.

The Kiwanis Club is to issue a challenge to the Rotary and Lions Clubs for a golf tournament. Kiwanians Bell, Hutchinson and Dorr are on the committee to arrange details. The club voted in favor of the proposition to drive for funds to finance the Boy Scouts of America and will give assistance to the campaign. They declined a proposition by Manager H. E. Patterson of the Fresno District Fair to hold their next meeting at the fair grounds.

PROHIBIT STUNTS
WASHINGTON, Sept. 23.—Participation of army fliers or army flying machines in exhibition flights except as may be arranged by the government has been prohibited by the war department, it was announced today.

Opening Dance, Armory Hall, 323 Broadway, Saturday evening, 8:00 o'clock. Benefit National Gun.

He urged deep study of the Shantung question, which he stated was to be one of the main issues that will be brought up at the coming disarmament conference to be held in Washington. He declared that the proposition submitted by Japan, if agreed upon and accepted by the other powers relative to Shantung, would furnish a solid basis for a Japanese province in reality.

JOBLESS MEN SEEKING WORK

Unemployed Apply To Local Agencies

Continued from page 9

Commandant Jensen, yesterday, influx of jobless.

With the closing of the grape season work has decreased, and there is a corresponding increase in the number of persons without work, said W. G. Mace, manager of the Fresno office of the state employment bureau. There is a small amount of work in the mountains, and a few of the crowds that come to the bureau office only a comparative few can do the class of work found in the mountains.

Mace points out that the lumber companies, with the exception of the mills at Sugar Pine and Sanger, have shut down operations, and the tendency everywhere seems to be to lay off men rather than add new ones to the payroll.

As soon as the rainy season begins there will be considerable farm labor, plowing, sowing and leveling, and conditions among those out of work will improve, it is believed.

Several hundred men visit the bureau office daily seeking work. Many of these do not register, but simply visit the office, scrutinizing the bulletin board, and then pass out. This number includes both Fresno men and transients. Conditions in the San Joaquin valley for men who are experienced in ranch work are not so bad, said Mace, but it is largely the inexperienced man from the cities who is suffering.

No New Work Beginning.
There is no new work beginning, according to Mace, and even the big ranches are laying off men, but were it not for the large number of unemployed men coming from the cities, conditions in the San Joaquin valley would not be so bad. The office of the state employment bureau at 516 H street was filled yesterday morning with men seeking employment at the time it was visited by a reporter for The Republican.

The police department says that there are more unemployed men at present than is customary at this season of the year, and cites as one of the contributing causes the shortage of the grape crop from frost. In addition, the trains are daily bringing in and carrying out numbers of hoboes, many of whom are jobless because of force of circumstances and not choice.

Men frequently call at the police department seeking information on possible work in the vicinity. There is another class of jobless which does not call at the police station, and the department has had quite a few calls from the residential districts on account of the presence of hoboes at back doors.

HAIR DYEING
Application of harmless coloring agents; henna packs, restoring, toning. All work by experts, reasonable rates. Marcelling, water waving, hairdressing.

BURNS HAIR STORE
1215 Van Ness Ave., Fresno

Horse Racing

Sept. 27, 28, 29, 30

Wheel! Look at 'em go! See those thoroughbreds flashing around the track, battling for speed supremacy every inch of the way, streaking for the wire neck and neck, urged to greater bursts of speed by the mighty roar of cheering thousands!

Experience again the thrill of this great sport that has never lost its power. See some of the finest and best matched horses in the country in action on Fresno's new half-mile track, inside the racing bowl. Track visible all the way around, and most races pass the grandstand at least twice.

North Stand, 25c; South Stand, 35c; Grandstand, 50c

A Greater, Grander District Fair
Great Auto Race
Saturday, Oct. 1st

More than double former exhibit space; \$16,000 in cash prizes to be awarded exhibitors. Stock-raisers, poultrymen, farmers and others from all over the Valley are competing. There will be Educational, Industrial and Household Expositions, and the largest Auto Show in the State outside of San Francisco or Los Angeles. Free Attractions, Music, Dancing, Fireworks. Below is a partial list of the features of this wonderful exposition:

Stock Show * * * * *
Poultry Show * * * * *
Household Exposition * * * * *
Educational Exhibits * * * * *
Agriculture Show * * * * *
Bands * * * * *
Orchestras * * * * *

LEVY'S
—A Store of Better Values for Less Money.

THE HOME OF Sincerity CLOTHES

The Best Suit Value We've Offered for Years

---Suits in Hard Finished Worsteds, Home Spuns and Scotch-Tweeds in Sport and Conservative Models.

\$30.00

Clothing manufacturers have done themselves proud in turning out men's Fall clothing. The line is far superior to any they have put out for the last four years and their prices enable us to retail them at 50 per cent less than what we were compelled to charge for an inferior suit a year ago.

You will be truly astonished at the wonderful values we are offering for \$30. You will marvel at the master workmanship and the incomparable fabric. Not only are there Scotch tweeds and Homespuns in sport models for the young man, but "old-time" hard-finished worsteds in conservative models for the older man.

We suggest, in justice to yourself, that you come in and see these suits we are offering for \$30. We feel sure that you will agree with us that they are wonderful values. Come in and look at them. If you are ready to buy your Fall suit—whether it is not, all right. It will be a pleasure to show them whether you are ready to buy or not.

PORTLAND, Ore., Sept. 22.—San Francisco made it three straight over the Beavers, winning today, 7 to 3. Portland was hit hard and errors contributed to his defeat. O'Doul was in trouble only once, and aided materially in winning by getting four singles in as many times up.

SEATTLE TAKES DOUBLE
 FROM LOS ANGELES
 SEATTLE, Sept. 22.—Seattle took a double-header from Los Angeles, 7 to 6 and 10 to 4. The first game was a close and quick, Lane's clutch drive in the seventh finally bringing the home team victory. In the second game, Herb Greton had things settled early. He allowed but three scattered hits.

LOS ANGELES, Sept. 22.—The two events of the racing meet, the final day of the racing meet, Friday, will include the big free-for-all race and the big free-for-all race. The program in each of the events will be \$500. A running race for a purse of \$200 and a running race for a purse of \$100 will also be contested. Three events will be held in each race.

Leta J, one of the horses entered in the four days of horse racing at the Fresno District Fair next week. She has a record of 2:03. The owner is Frank Jones of Stockton.

FOUR DAYS OF HORSE-RACING AT FAIR FREE-FOR-ALL RACE FEATURES CARD \$5,000 PURSE IS OFFERED TO WINNERS

The sixty trotters and pacers who are to contest in the speed program on the new horse race track at the Fresno District Fair next Tuesday, Wednesday, Thursday and Friday, were out on the track yesterday morning at various times, warming up and getting in shape for the grilling tests that are to be held with prize money totaling over \$5,000 being up.

All of the horses with one or two exceptions are in Fresno and are quartered in the barns at the southern end of the grounds. In nearly every case the horses are in splendid shape, and expectations for record breaking times are held by the drivers and owners.

On Tuesday, a \$200 trot and a \$200 pace will be held with purses totaling \$400 being given to the winners. Two running races will also be held with a stake of \$100 in each case being the goal. In each event there will be three heats, making the afternoon program a long and complete one.

The Wednesday program includes a \$250-jack and a \$250-trot with purses of \$500 being held up in each event. Two running races for purses of \$200 will be held in addition. Each race will be divided into three heats.

Thursday will feature a \$212 trot and a \$212 pace race for purses of \$424 in each event. In addition, two running races with a prize of \$200 and a prize of \$100 being given to the winners of the two events will be held.

The final day of the racing meet, Friday, will include the big free-for-all race and the big free-for-all race. The program in each of the events will be \$500. A running race for a purse of \$200 and a running race for a purse of \$100 will also be contested. Three events will be held in each race.

REPUBLICAN TO PUBLISH YANK, INDIAN SERIES

The Republican will publish a detailed account of the Cleveland-New York series, play by play. The series, which will be published in three parts, beginning today at New York. Both teams are in a virtual tie for the leadership of the American League, and from all indications this series will be the most crucial of the season.

MODESTO BOY RETURNS FROM BIG LEAGUES

(Special to the Republican.)
 MODESTO, Sept. 22.—Walter Kestler, Modesto's star pitcher, who finished the season with the Cedar Rapids club in the Three-I League, returned home this afternoon.

He reported at the close of the season to the Brooklyn club, and was allowed to return home owing to an injured leg received at Cedar Rapids a month ago. Kestler will report to the Dodgers at the opening of the spring next season. He had a good season in the Three-I League, and his leg was hurt.

ROCKAWAY POLOISTS WIN

PHILADELPHIA, Sept. 22.—Rockaway defeated the Army first team, 15 to 9, in the semi-final match for the open polo championship today, and will play the Grant Neck four for the title Tuesday.

ATHLETICS DROP TWIN

PHILADELPHIA, Sept. 22.—St. Louis won a double header today. St. Louis won the first game, 10 to 4, and the second game, 10 to 4. The Athletics dropped the twin.

FRESNO BICYCLE CLUB TO STAGE 10-MILE RACE

Five of Fresno's crack riders have already entered for this event and they began running into shape for the coming event. The riders already entered are "Cyclone" Trumble, Earl Jackson, "Falso Alarm" Drysdale, "Kid" Clawson and Al Farkegan.

The race will take place on Sunday, October 2, starting about one-half mile past the Santa Fe tracks and riding to the end of the highway and returning by way of the same course.

Prizes for the winners of the race will be donated by the Cycle Trades of America, Ray Seymour Valley Cyclery and Warlock Cyclery. These prizes are on display at Ray Seymour's Cycle store.

The Fresno City Wheelmen will hold a meeting Saturday night at Ray Seymour's bicycle store for the purpose of completing plans for the race.

LOS ANGELES, Sept. 22.—Cincinnati pitched Cadore, 5; Schupp, 10. Smith, 1; Cooper, 2. Winning pitcher—Cadore.

MANY EXHIBITS SHOWN AT FAIR

Kings County Scoring Big Success

(Continued From Page 9)

There are some very fine ones to be seen there.

Author is Exhibitor.

It might be well in passing to call attention to the fact that in the exhibit of the Kings County Stock Show, the cattle are those of the Kings County and the well known author and writer on stock subjects.

Agricultural Products

The livestock exhibit is not all that Kings county raises, as is amply shown in the splendid exhibits of the several communities. Harwood, the first community exhibit as one enters the main pavilion, and which is shown in the picture, has a pyramid of its products arranged in attractive style. Here are big pumpkins, fine apples, grapes, and fruit of all kinds both fresh and dried, egg plants, popcorn, melons and dairy corn. Delta View has also a fine display, next to that of Harwood.

Harwood's community which has never heretofore exhibited, is the next booth. The lattice roof of the booth is festooned with luscious grapes, and with milk, cheese, corn, apples, pumpkins, and various other products in a way to attract the eye of the passer-by.

In the center of the first floor is the exhibit of the Kings county, where the Kings river runs and runs around it. It displays almonds, walnuts, fruit and vegetables of every kind and variety, with mammoth melons and sunflowers, dried fruits, corn in a home evaporator, and yellow and red dent corn. A boat indicates how the residents get to mainland, and in the boat are some doughnuts to represent life-savers.

On the second floor, the exhibit of its products, with dried fruits much in evidence, showy grapes hung all around and monster pumpkins. The last of the community exhibits is that of the Kings county, where the Kings river runs and runs around it. It displays almonds, walnuts, fruit and vegetables of every kind and variety, with mammoth melons and sunflowers, dried fruits, corn in a home evaporator, and yellow and red dent corn. A boat indicates how the residents get to mainland, and in the boat are some doughnuts to represent life-savers.

Rates Are Reduced On Some Livestock

According to announcement by G. W. Luce, Freight Traffic Manager of the Southern Pacific Company, all transcontinental rates on live stock, except horses, mules, asses and burros, have been reduced 20 per cent. They are now effective.

This 20 per cent reduction in the transcontinental rates for long hauls is in addition to the reductions for short hauls of livestock announced by the Southern Pacific several days ago.

Luce states the reduced rates have been published as a temporary measure, to assist the stock growers in dealing with the present unsettled market and financial condition, and will expire December 31, 1921.

ESTATES APPRAISED.
Inventories and appraisements of two estates were filed yesterday in the superior court by G. L. Ayres, north, an inheritance tax appraiser. The estate of Margaret Matthews is valued at \$2,717.20, according to the report. Solomon Hoguelet left an estate valued at \$12,100.

SUES ON RAISINS.
Suit to collect \$225 due on a sale of raisins was filed yesterday in the superior court by Frank A. Joseph against J. W. Files and Frank Chumil. The plaintiff alleges that he contracted with the defendants to sell them 25 car loads of grapes at \$25 per car, receiving but \$100 in payment. The contract was dated March 1, 1920.

SUES FOR DAMAGES.
Damages amounting to \$1500 are sought in a suit filed yesterday in the superior court by W. J. La Boga against Paul Janigan. The damages are asked as the result of an automobile collision on the state highway on March 2. The plaintiff alleges that Janigan was driving his car in a negligent manner.

APPOINTMENTS MADE.
E. M. Myers was yesterday appointed deputy sheriff without pay by Sheriff W. F. Jones. Ellen M. Burke was appointed a clerk in the county probation officer's office by Probation Officer Oliver M. Akers.

of Mrs. Burton Paddock and Mrs. Coody.
In the quit department was a quilt taken by a soldier from a southern home during the civil war, who was a member of Co. D of the 160th Indiana Infantry. His name was Jonas Rubel.

The juvenile department was also interesting, and the home cooking department displayed what the women put away for the winter in cans and glass jars.

At the rear of the main pavilion was the art department, and here were displayed the art work of the women of Kings county, in oil and water colors, crayons and the like, and some specially fine art creations were shown.

Miscellaneous Exhibits
Outside the pavilion were exhibits of various kinds of farm machinery, automobiles, and there was a large joy zone.

The horse racing, in which Kings people are much interested, this being the sport of Kings, attracted large numbers to the grandstand daily, and taken all of all, there was much to see and enjoy in Kings county's big fair.

BAR ARMENIANS FROM U.S. ENTRY

Have Turkish Passports Is Reason Given

Three hundred Armenians, mostly women and children coming to join relatives and young women intending to be married, are held on Ellis Island for deportation because of an alleged technical flaw in the law or its interpretation which operates to bar Armenian immigration entirely, according to George H. Topakyan, general secretary of the Armenian society, says the New York Times of September 16.

These Armenians are refugees from Turkish rule, according to Mr. Topakyan. Most of them have had relatives massacred by Turks and many of the young women have suffered at the hands of the Turks, and Topakyan, who professed that they would commit suicide in large numbers if compelled to return to Turkey.

"Four young Armenian women have thrown themselves overboard and drowned at Ellis Island this year, because they were in danger of being deported into the hands of the Turks," he added.

No Armenians have been admitted this month, although they are entitled to enter at the rate of 318 a month under the new law, said Mr. Topakyan. He attributed their exclusion to a strange blunder in the law or its interpretation. Although 318 Armenians a month have the abstract right to enter this country, they are being denied this privilege because they cannot produce Armenian passports, but only Turkish passports and are refused admittance, according to Mr. Topakyan, on the ground that they are Turks and that the quota of Turkish immigrants has been exhausted.

Ordered to Return
"If these Armenians are deported it will be one of the most tragic blunders ever committed in the history of this country," said Mr. Topakyan. "They arrived here on the second of this month. On looking at their passports, the immigration officers said: 'You'll have to turn around and go back to Turkey. Turkish quota is already exceeded this month.'"

"When we intervened on their behalf, we were told: 'But these are not Armenians. They are Turks.' We explained that the Turks had driven the Armenians to all parts of the Turkish Empire, that there had been no Armenian nation during a period of 500 years, and that almost all the Armenians were under Turkish rule and should be counted against the Armenian quota, regardless of the fact that they came with Turkish passports."

"There was another absurdity involved. Almost no Armenians have come in this year. Less than 10 per cent of their quota has arrived in any preceding month. Very few Turks have come. But Greeks have been swarming here from Turkish ports and with Turkish passports. Apparently a shipload of Greeks had arrived here on the first of this month. These Greeks used up the Turkish quota. The Armenians have thus been kept out of the country by a double absurdity in the law or in its interpretation."

"They have been held on Ellis Island for fourteen days with the threat of deportation hanging over their heads. Yesterday, apparently through the personal intervention of President Harding, a temporary order was issued at Ellis Island suspending their deportation until the matter had been given further consideration."

Mr. Topakyan sent a letter to President Harding on Sept. 8, setting forth his view.
Representative Isaac Steag said yesterday that the almost cruelty with which the law had been administered on Ellis Island had been mitigated because of direct orders from President Harding.

Claims Husband Does Not Bathe; Seeks Divorce
Because her husband refused to take a bath for weeks at a time, Linda Maude Koenig yesterday filed suit for divorce in the superior court against Adolph H. Koenig. She charges that her husband has habitually shaven, throwing tobacco on the floor, sitting on the front porch of their home clad only in trousers and shirt, allowing his dirty feet to be seen by people passing the home and that he would go for days without washing his face, combing his hair and shaving.

The couple were married July 11, 1918 and separated in August of 1920. The plaintiff asks that she be allowed \$50 a month alimony and that her maiden name of Linda M. Steag be restored. There are no children.

ASKS PROBATE OF WILL.
Petition for the probate of the will of Juliana Wahl was filed yesterday by Maria A. Henriouille in the superior court. Mrs. Wahl died September 18, leaving an estate valued at more than \$10,000 to be divided between six heirs.
